Remarks of the Supervisor:

1. The dissertation was well written. It was nice to read and I was able to learn from it myself how you approached the project
2. Good to see you did some initial investigation on Coordinate.
3. The Cluster Confidence Score paragraph and that also helps for applicability.
4. I would have wished for more time for investigation of the subject, because it is certainly relevant for our applications. It is a pity that we could not use data from live applications due to data privacy contracts with customers.
